MAKE IT A MIRAGE.

The retractable screen that upgrades the everyday

QUALITY YOU CAN COUNT ON

- North American made
- Quality materials
- Mesh by Phifer®

Mirage uses only the highest quality components and finishes. From the internal brass bushing to the powder coated aluminum, Mirage screens are built to last.

WORLD'S SMOOTHEST SCREENS

- Screens that stay out of your way
- Cool and ventilate your home
- Keeps insects out

Unlike traditional swinging screen doors, the Mirage Retractable Screen is only across your door opening when you need it to be. Additionally, because the screen is stored out of sight when not in use, it will virtually blend in with your home.

Mirage Retractable Screens are the smoothest on the market and are designed to be installed on many door applications.

AVAILABLE WITH RETAINED MESH

- Mesh secured in bottom and top track
- Available in all colors and handles
- Keeps pets in and debris out

Choose the 1750R as a retained mesh option for your home. Perfect for households with pets, the 1750R uses scratch resistant mesh. The retained mesh is secured in the top and bottom track which keeps debris out and still allows for fresh air.
